ADAGIO FUND

QUARTERLY FACT SHEET AS AT 31 MARCH 2022

The Adagio Fund invests in a range of local and foreign asset classes, including equities, listed property, bonds and cash. The management of the assets are outsourced to professional investment managers that have been given full discretion to allocate capital between (and within) these asset classes in line with their views of current and expected market and economic conditions, in proportions appropriate to the portfolio's objective, and subject to the regulatory limits applicable to retirement funds. Passive strategies may be included where deemed appropriate, either by the underlying managers themselves, or as separate building blocks. The underlying managers bring a diverse range of capabilities, investment styles and philosophies to the table, with the aim of achieving competitive relative performance throughout the market cycle.

GENERAL FUND INFORMATION

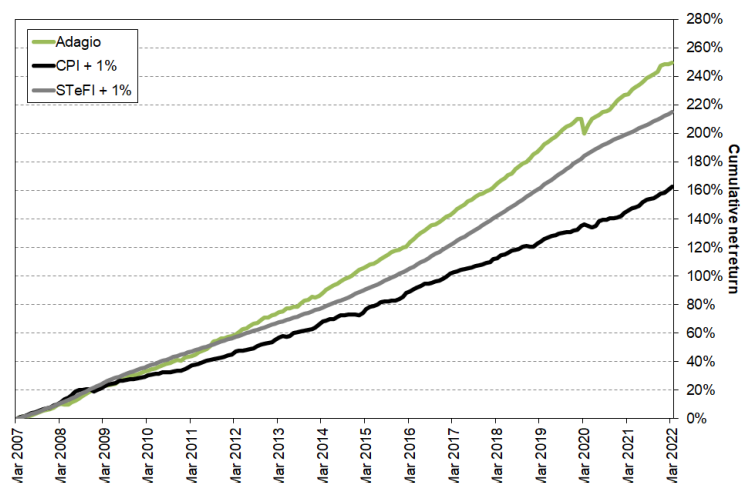

FUND:	Adagio (/əˈdɑː(d)ʒɪəʊ/, meaning at ease, or slow)	HIGH	MED	LOW
Objective:	To provide a consistent, but typically lower, level of investment growth over the short term.	Has a low risk profile, and is typically suitable for members who:		
Fund characteristics:	<p>Given the fund's objective of providing consistent returns, the majority of the portfolio's assets will be invested in relatively stable asset classes such as bonds and cash. Where appropriate opportunities arise, the managers may invest a small portion of the portfolio's assets in equities (<10%) or listed property (<25%).</p> <p>The Adagio Fund has been designed to fulfil a similar role as a typical money market fund, but is expected to have a higher and slightly more volatile return profile.</p> <p>Although the fund is expected to display a very high degree of capital stability, on very rare occasions a month's return may dip below zero by a small margin.</p>	<ul style="list-style-type: none"> Are seeking very consistent levels of return; Cannot afford to lose capital; Are willing/able to forgo high investment growth over the long term; Want to house short term capital in a bucket strategy. 		
Return target:	Aims to achieve a net return of 1-2% a year above inflation over the short term (i.e. one to three years).	Benchmark: Cash (STeFI composite) + 1%
